

Specialists in Interim Clinicians

Do you need some temporary Senior Clinical resource to assist with major projects?

Templars have been supplying consultant grade doctors to the NHS, Ministry of Defence and Private Sector since 1998.

We are a small specialist company with very experienced staff and significant senior NHS experience.

The majority of our doctors are ex MOD or NHS and have opted for a more flexible way of working

The seniority of our doctors means we have a wealth of experience far broader than just their clinical skills.

Many have been Medical Directors or have held management posts during their recent career. We have Clinicians from various medical backgrounds with management experience in the following

- Restructuring projects
- Transformation programmes
- Disaster Recovery Planning
- General efficiency drives
- Infection control
- Appraisal processes
- Audit

“The majority of our doctors are ex MOD or NHS and have opted for a more flexible way of working. “

This is just a sample of the expertise we hold. We also have a large number of doctors with much more specialised experience.

We are an approved supplier on the NHS PaSA National Framework Contract for Medical Locums (2008).

Why not contact us now and discuss how we can help you?
